

Friday 19th June 2020

Dear Parents and Carers,

I am writing to you following the government's announcement that their plans to reopen schools for the last month of the summer term to years 2, 3, 4 and 5 have been cancelled and that schools will no longer be fully open before the summer holidays.

All schools within the Bourne Education Trust will be following this guidance and as such, will continue to provide home learning until the end of term as we have done since school closures in March. Our teachers will continue to keep in regular contact with your children and will organise work to prepare the children for coming back into a new year group with a new teacher.

We have not yet received any guidance about how schools will return in September but as soon as this is available to us, we will write to inform you of our plans.

The school closes on Friday 17th July 2020 and at this time, the provision for key worker children within school will cease. We are awaiting confirmation of possible summer holiday provision locally - if this is something that you will require for the summer term, please let us know and we will do our best to provide some contact information if available.

We thank you for your continued support in these challenging times.

Kind regards,

David Gunning
Head of School
