

Bourne Education Trust – Surrey’s top performing trust

Figures released by the Department for Education indicate that the Bourne Education Trust is Surrey’s top performing multi-academy trust for pupil progress across both the primary and secondary phases.

The Bourne Education Trust (‘BET’) is a Surrey based multi-academy trust made up of ten schools, across both primary and secondary phases. Brookwood Primary School joined BET in 2015. BET is ranked 3rd in the country for progress in reading, writing and mathematics at key stage 2 and 22nd for progress at GCSE in the 2017 performance tables. BET has shown itself to be a key player in the pursuit of pupil progress and this supports its unblemished track record of school improvement across all the schools in the Trust.

BET Chief Executive, Alex Russell, said: “I am so proud of the staff and pupils in our schools; they have achieved magnificently well and it confirms that our ethos ‘transforming schools ... changing lives’ really is at the heart of what we do. This could not be achieved without highly skilled and dedicated staff, governors and trustees and a pupil body that is characterised by high aspirations and a love of learning. Congratulations to everyone.”
