

Eagle Radio Media Academy - a new media training course for young people ages 8-18

An exciting and fun six-week media training course for young people, which takes place at our professional radio studios in Guildford.

After the success of our inaugural Media Academy courses, we are pleased to announce new dates for the programme for June/July 2019, training young people in all aspects of modern media in a professional work environment.

Led by Eagle Radio presenter and tutor Jack Johnson, the programme consists of six sessions over the course of a school half term and covers radio presenting and production, video production, social media, YouTube, DJ and mixing skills, advertising and journalism.

You can choose to do the Wednesday evening course or the Saturday afternoon course, and there are three age groups (8-12, 12-15 and 15-18).
